

4. National Statistical Service of the Republic of Armenia

The National Statistical Service of the Republic of Armenia (hereinafter referred to as NSS of RA) implements the statistical work foreseen by the state statistical work program on the territory of the Republic of Armenia.

The NSS of RA is headed by its **President** , who is appointed for a term of 6 years and relieved by the President of the Republic. Deputy of the President of NSS of RA is appointed by the State Council on Statistics based on proposal of the President of NSS of RA.

The NSS of RA has three-level system (central body, 11 regional (marz) departments and their 41 territorial units. Within the framework of RA administrative and territorial government system 11 marz departments of statistics (including Yerevan city's) are authorized both to co-ordinate the activity of territorial units of the marz and to provide NSS of RA and marz municipalities with the necessary statistical information by marzes.
