

3.6. CHANGES IN BALANCE OF THE CAPITAL OF THE SURVEYED NON-PROFIT INSTITUTIONS DURING 2001

During the survey, besides the detailed information on capital payments and receipts of the institutions, the questionnaire included also questions on the balances of the capital at the beginning and end of year, which allowed to avoid a range of mistakes related to the completing of the questionnaire, giving possibility to control somewhat the difference available between the payments and receipts.

According to the results estimated by the survey, during 2001 changes in the balance of the capital of non-profit institutions made up 815.3 mln. drams. The mentioned indicator, in accordance with the groups of non-profit institutions separated by the survey, is given in the Diagram 7.
