Thank you very much for your co-operation☺

<User's Short Survey> Questionnaire Summary

The total number of participants in the meeting organized on 6 November 2017 in the National Statistical Service of the Republic of Armenia within the Twinning project was 58, of which 48 or 82.8 % answered the Short User Survey questionnaire.

The summary results of the survey show that 28 of them or 58.3 % were representatives of ministries, 20 or 41.7 % - representatives of other organizations. The findings of detailed review of each question are the following:

1. To the question **“Are you aware of the release calendar for official statistics?”** 38 of the respondents or 79.2% answered “yes”.

2.To the question “Do you use the methodology/documentation linked to the statistics” 31 or 64.6% answered positively.

3.To the question “Which sources do you use?” 48 respondents gave 120 indications in total, of which 57 or 47.5% specified that they used www.armstat.am (mirror web-page: www.armstat.info), 21 or 17.5 % - www.ArmStatBank.am, 32 or 26.7% - publications, 7 or 5.8 % - press releases, 3 or 2.5 % - www.ArmDevInfo.am .

4. “In case of errors in published statistics, do you feel informed about the errors?”

Only 21 or 43.8% of respondents noted that they were informed.

6. To “Where should Armstat improve to fulfill your needs?” 48 respondents had 57 indications in total. 23 of them or 40.4 % noted the quality, 17 or 29.8 % - comprehensiveness, 5 or 8.8 % - timeliness, 12 or 21.0 % - “other”.

(%)

7.To the question “NSS use different sources for producing statistics (census, administrative registers and sample surveys). Please mark below how you trust each of these 3 data sources.” there were 120 indications in total, of which 60 or 50.0% chose “high trust”, 35 or 29.2% - “medium trust”, 25 or 20.8 % - “low trust”.

(%)

It is worth mentioning that 12 or 20.0% noted “High trust” for the census, 17 or 48.6 % - “medium trust” and 5 or 20.0% - “low trust”.

For administrative registers 30 or 50.0% had “high trust”, 12 or 34.3% - “medium trust”, and 6 or 24.0 % - “low trust”.

For sample surveys 18 or 30.0 % noted “high trust”, 6 or 17.1% - “medium trust”, and 14 or 56.0 % - “low trust”.
