<sup>◇</sup>The data are verified.

<sup>1</sup> The publication of the estimate of the average monthly nominal wages/salaries of the reference month is being interrupted due to the fact that from April 2020 the estimated indicator based on the analysis of time series, was significantly different from the indicators calculated on the basis of the database of the Income Tax and Social Payment submitted by the State Revenue Committee. Thus, the indicator will be calculated and published exclusively on the basis of the database received from the State Revenue Committee (25th / 26th day after the reporting month) and will be posted in this table on the last working day of the month.
